

LOCAL AND GENERAL.

The Umatilla will be due on the 31st inst.

H. B. M. S. Espiegle has a Mutual telephone—No. 500.

Mr. L. J. Levey sold last week 48-100 of an acre of land on Liliha street for \$1250.

Dr. Anderson left Honolulu Tuesday for the Waialeale for a two weeks vacation on Kauai.

A large number of seamen from H. B. M. S. Espiegle were on shore Thursday taking in the "sights" around the city.

The American missionary packet, *Monongahela*, is now off the Marine Railway and lying at Wilder's steamship wharf.

As will be seen by a notice elsewhere, Mrs. Elizabeth M. Colburn, mother of Marcus E. and John F. Colburn, died Wednesday.

Sister Irene and Crescentia left for Honolulu on Tuesday afternoon to assist Sister Marianne in the duties of the Catholic mission.

There was no meeting of the Debating Society last week, owing to lack of a quorum. There will not be another meeting for two weeks.

Throwing ball is a game carried on in Alakoa street near the Y. M. C. A. every afternoon between 5 and 6 p. m., much to the discomfort of the passers by.

A case, not a cart, as the Bulletin has it, of General Tom Thumb's foot is to be seen in the show window of the Manufacturing Shoe Company, Hotel street.

The schooner *Kulanani* arrived last week from Kona, Hawaii, with eight passengers, consisting of one man, five women and two small boys—all natives.

A fine photograph of the First Battalion, Honolulu Rifles, are on view in one of the windows of the Pacific Hardware store.

The employees of the GAZETTE and the *Advertiser* are about to organize a baseball club. Several of them went out for practice after working-hours Thursday.

Mr. Nacayama gives his sincere thanks to those ladies and gentlemen who so kindly sympathized, attended and assisted during the illness and burial of his beloved wife.

Sister Marianne now superintends the Boys' Home at Kalaheo, Molokai. She has also charge of the Bishop Home for females. These combined institutions contain about 160 persons.

The funeral of the late Mr. Samuel Paumotu took place on the 26th inst., from the *Kaumakapili* Church. Several members of the Fire Department followed the body to the grave.

Mr. Hobson must have found an ad. in the *Gazette* a "safe" investment after one-day's trial, for he has quadrupled the space occupied. No need to "hire a hall," when you can buy one from him.

Mr. P. L. Barrington left by the *Kinau* Tuesday to write up the Volcano for the *New York Sun*. Our Island wonder will bear all the writings-up that can be given to it, and still have new features to form themes for future generations.

The Rev. W. D. Westervelt delivered an address at the Blue Ribbon entertainment on Saturday evening to an interested audience, and we learn that the successful gentleman will give his future field of labor in Kohala district, Hawaii.

The following gentlemen have been elected as officers of the Waialeale Mill Co. for the term of one year: T. H. Davies, president; Alex. Young, vice-president; F. M. Sawyer, treasurer; E. W. Hildebrandt, secretary; and T. K. Keyworth, auditor.

We draw attention to an advertisement in another column, giving details of the lands intended to be used or otherwise required for the purpose of the *Island Railway and Land Co.*, and for which lands and properties, notice is given in said advertisement.

The funeral of Mrs. Nacayama took place Wednesday at 2:40 p. m., and was attended over thirty carriages in the procession, which was headed by about fifty Japanese on foot. The remains were taken to Makiki cemetery for burial. Dr. Hyde conducted the services.

The *Lehu* on her trip to Hilo, on the 15th inst., carried the traction engine, for use on the volcano road as a machine and crusher. The engine of the machine weighs six tons, and the whole machinery aggregates a weight of thirty-three tons. It is probably now at work.

It is reported to us that the Hon. W. C. Parker continues a very weak condition, and hopes of his ultimate recovery are by no means bright. The action of his heart was very irregular all Tuesday, and an ominous anxiety is manifested by his intimate friends. Mr. W. F. Allen will act for Mr. Parker in all business matters.

In the "By Authority" column to-day will be seen a "notice of intention" by the Government "to purchase lands at Waikolu, Kalaheo and Kalaupapa, in the Island of Molokai." A careful perusal of the notice referred to should be given by those interested. The method of stating the facts required by the Government, is given very fully.

The *Waialeale* arrived from Kauai Thursday morning, and brought a damaged roller from Kilauea Plantation. The accident to this piece of machinery happened week Monday, and the Kilauea mill had to stop grinding until another roller arrived. It is fortunate, however, that there is a suitable one in Honolulu ready to send, and it was shipped by the *Waialeale* on Friday.

The sale of Mr. J. W. Luning's furniture Thursday attracted a considerable number of bidders, and fair prices were realized. Two of Jules Tavernier's framed paintings of the Volcano were disposed of. The larger one was purchased by Captain Cliney for \$172.50, and the smaller one, about 24 by 20 inches in size, was knocked down to Mr. M. Hyman for \$77.50. A plaque of the crater was also sold, and fetched \$25. The sale was not sold, but few articles of much value remained unsold. The sale, upon the whole, the auctioneer considers very satisfactory.

See contents of Planter's Monthly in this issue.

The Owl is out hooting as usual; brilliant, spicy and original.

A. K. Weir has disposed of his blacksmith business on King street to Wright Brothers.

Summer night-rains are now in order, and we are having them very regularly and copiously.

The steamer W. G. Hall went on the marine slip Friday at 5:30 p. m. for cleaning purposes.

H. B. M. S. Acorn, Captain Atkinson, expected from the west coast of Africa, will relieve the *Espiegle* next August.

There is a beautiful painting, a basket of lilies, in the window of the Pacific Hardware Co. Miss Lulu Fanning was the artist.

Mr. J. F. Morgan sold at auction, on Tuesday, four shares of Hilo Telephone Stock at \$15 per share. The par value is \$25 per share.

H. B. M. S. Caroline, Capt. Wiseman, is expected to touch at Honolulu about the middle of June, from Coquimbó en route to British Columbia.

It is reported that the Barber's Point lighthouse was without a light on Thursday at 4:30 a. m., and how long previously on that night is not known.

In the "By Authority" column will be seen the appointment of the Hon. Robt. Hoapili Baker as Aide de Camp and Colonel on His Majesty's personal staff.

The photograph of the Honolulu Rifles in Camp, that appears in the window of the Pacific Hardware Co., is the work of Theo. P. Severin of Honolulu.

The grapes, now being offered for sale by the Honolulu grocers, are of native growth and of surprisingly good quality. Those grown on the "plains" are especially delicious.

Quite a large number of toys, and illustrated books and papers went on board the *Corcoran* Tuesday evening, for distribution among the youthful South Sea Islanders.

The Inspector-General of Schools, when last heard from, was inspecting the Kau and Kona schools. He is expected to return to Honolulu on Wednesday next by the *Kinau*.

At the Police Court on Friday the number of six Chinese gamblers were called; but the owners of these cognomies did not present themselves, and in default forfeited \$5 bail each.

The summer temperature on these islands has now set in; but the trade-wind may be expected to blow while the warm weather lasts, and offset tropical conditions of summer heat.

There was a much larger attendance than usual at Enama square Friday night and the majority of those present were doubtless drawn by the published programme of music to be played in honor of Queen Victoria's birthday.

We regret having to record the death of Mrs. G. O. Nacayama at the comparatively early age of 30 years. Mr. Nacayama is inspector of Japanese laborers on the Hawaiian Islands, and is well known among our residents.

The "annual dinner" of the British Benevolent Society did not take place this year. We presume that this omission was chiefly owing to the absence from Honolulu of several of the officers and prominent members of the Society.

Mr. A. L. Smith's allotment in Fort street, near King, has been clear of debris for several days; and we learn that the construction of the new building will be commenced in about two weeks. The delay is owing to the plan not yet being quite finished.

Notwithstanding the exceptionally dull times in Honolulu, new buildings are being constructed in various parts of the city. A two-story residence is being erected on Richard street opposite the Palace, and the sound of the carpenter's hammer is being heard in other sequestered localities.

Another "dead cat" is reported in the Bulletin. We have no doubt that cats do die, and that their carcasses are thrown anywhere to get rid of them; but really dead cats are so much more plentiful than dead donkeys, that there does not seem to be any need of making a record of every feline death.

In giving a report of a Hilo fair recently held, the Bulletin of the 18th inst. makes the writer of the Hilo Record say: "We must, in closing, congratulate the ladies who took the thing. It was finely gotten up on the stage. The whole thing." The question now is, who is the bore?

We learn that Hall Brothers, the Port Blakely shipbuilders have commenced the construction of a four-masted schooner for Messrs. Lowers & Cooke. The length of this vessel will be 203 feet over all, beam 38 feet 8 inches, depth 14 feet, and carrying capacity 900,000 feet lumber. Capt. D. B. P. Penhallow will command the new schooner.

The firms who have tendered for a supply of pipes and fittings for water works at Honolulu, Hilo, Waikolu and Koloa are: Castle & Cooke, E. O. Hall & Son, W. G. Irwin & Co., Theo. H. Davies & Co., S. H. Williams, Macfarlane & Co., Glasgow, Scotland, and the Risdon Iron Works, San Francisco. The successful tenderers are not yet known.

The walls of the new Chinese Fire Engine House on Maunakea street are now fully built, and the roofing is being proceeded with. This will be a fine and commodious building when fully finished, and will be an architectural ornament to this part of the city. The walls are substantially built of brick, the building is of two stories, and is planned in the usual engine-house style; but without a tower.

About 1 o'clock Tuesday morning a policeman heard a Chinaman yelling near the corner of Alakoe and Queen streets, and upon proceeding to the place found the Chinaman sobbing piteously. So far as the latter could make himself understood, it was learned that one kanaka and one white man had assaulted John and robbed him; but had made good their escape. At the Police Station the Chinaman's story was not fully believed; but what advantage he could have in telling a lie of that nature, it is hard to understand.

A grand minstrel and variety performance will take place at the Hawaiian Opera House on Saturday evening next. Full particulars later.

If the ladies will read the advertisement of the Popular Millinery House on the ninth page, they will learn something to their advantage.

Sneak thieves have been making their presence known in the city recently, but the police have not been so successful in catching them as could be wished.

Hollister & Co. carry full lines of drugs, tobaccos and cigars, and photographic supplies of all kinds. See their new advertisement on the ninth page.

Chickens are at present having an unusual value in the estimation of thieves, and it would be advisable for parties keeping fowls to provide extra security for their safety.

Mangoes are now coming into season, and are dropping in from the trees. This fruit would be more appreciated were it not so common and plentiful. It is nevertheless a delicious fruit.

Our allusion to "dead donkeys" in Saturday's issue, seems to have set the Bulletin man on his ears, which we presume are substantial enough for the occasion—not to mention their length.

Advices by the *Likilike* report fine weather on the Kohala and Hana coasts. Similar weather was also experienced by the *Iwailani* at Hamakua, and the *Mikahala* reports a smooth sea and clear sky from Kauai.

A kanaka, living near the Insane Asylum, on Saturday night drank an overdose of alcohol, or some other poison, and died in consequence soon afterwards. An inquest was held on Sunday, and the verdict of the jury will be rendered later.

At the race in Kapiolani Park on Saturday afternoon, Cummings' *Kaolani* beat Oederick's *Rockwell* two lengths in a half-mile dash; time 51 seconds. The race between Cummings' *Ivory* and Cornwell's *Conspiracy* was declared off. A large number of people were in attendance.

All the Government offices closed at noon on Friday; but business at the retail stores continued throughout the day—business did not seem to be much interrupted. Altogether, it was the quietest celebration of the British Queen's birthday we remember to have witnessed in Honolulu.

By the *Mikahala* we learned that Dr. Anderson will not return from Kauai for several days, as he has fallen into a considerable temporary practice there. We learn also, by the same vessel, that an accident occurred to a Portuguese at Koloa Mill whereby his leg was shattered by a cogwheel, and he died in consequence.

Mr. A. Hutchinson, a sculptor recently arrived, has just completed a cast of the bust of His Honor Mr. Justice McCully. This work of art is much admired; and, we learn, has given great satisfaction to all concerned. We also learn that it is probable others of local magistrates will have their busts cast by Mr. Hutchinson at an early date.

About 12 o'clock Saturday night there was a scuffle in Love's bakery, between Capt. of Police Larsen and a man named Pat Hayes. In the struggle between the two men Larsen's ear was bitten off altogether. We have not learned all the sickening details, but there seems to have been a grudge existing for some time. Hayes was lodged in the Station House.

The following item appears in the Bulletin of last Saturday: "Some of the crew from H. B. M. S. *Espiegle* were ashore to-day. This specimen is neither 'sanitary' nor 'mortality' reporting; but it reminds us of Shakespeare's 'men in black'." and as an item of cautious reporting it has few equals. It would do for a standing 'local' while the *Espiegle* remains in port.

Among the private picnics and parties that enjoyed the holiday on Friday was a yachting party to Pearl River; comprising the following gentlemen: Hon. W. G. Irwin, Mr. Justice Dole, His Ex. L. A. Thurston, Col. C. P. Lanika, Hon. M. P. Robinson, Capt. J. A. King, Messrs. Frank P. Hastings, C. N. Spencer, A. L. Ivers, A. S. Hartwell, W. H. Baird, F. M. Swaney, W. A. Whiting, Frank M. Hatch, Fred. Whitney and E. B. Giffard. The yachts returned about 4 p. m. all well.

MAUI ITEMS.

A False Alarm—Presentation—Personal Mention—Etc.

The Makawao Road Board has been changed by the resignation of W. J. Lowrie as chairman, and Mr. J. W. Colville in his place.

It is rumored that Mr. Wm. Fennel is to do the work of assessing and collecting in this district.

A new store is in course of erection at Hamakapoko to be occupied by Mr. C. H. Dickey.

The late rains have greatly improved the pasturage in Makawao, and the ditches are running full.

A six hundred pound bell has been presented to the Makawao church by Messrs. Castle & Cooke of Honolulu. It has been put in place and has a fine sound.

Mr. Ostram of Kohala is filling Mr. Gulick's pulpit for a few Sundays. The report sent to you last week of the killing of two Japanese in Kula was not confirmed, and I discovered it too late to correct the item. The Japanese who reported the affair was understood to say that two of his comrades had been killed, and the Chinaman was in consequence arrested, but it turned out to be only a quarrel.

Maui, May 24, 1889.

Hall Improvement.

The large Hall of the Y. M. C. A. is being improved by enlarging the platform, which is being extended three feet out from the wall, and lengthened about ten feet. This change will save a great deal of trouble which has been heretofore experienced in the necessity of supplementing the regular platform with a temporary structure on those frequent occasions when more room has been required. The lengthening of the platform considerably improves the appearance of the end of the room, by filling up what was formerly rather a blank looking space.

RECEPTION AT THE LEGATION.

A List of Those Who Paid Their Respects.

The reception held by Major Wodehouse on Friday at the British headquarters in Emma street, was conducted without ostentation, and in remarkably good taste. There was a quiet dignity about the whole arrangement, which bespoke a power that needs no display. The Royal Hawaiian Band, in full force, discoursed classical music on the lawn and under one of the magnificent shade trees that beautify the grounds; and the guests were received by the British Commissioner and his two sons. This reception was on the lines of a levee, and a better known by Americans as an "at home." Among the guests we observed the following:

H. H. Prince Kawanakoa, attended by Mr. J. W. Robertson, Vice-Chancellor, Hon. John O. Dominis, His Ex. Geo. W. Merrill, U. S. Minister Resident; G. C. B. d'Anglade, French Commissioner; Senator A. de Souza Canavarro, Portuguese Commissioner; Mr. Taro Ando, Japanese Commissioner; His Ex. Jon. Austin, Minister of Foreign Affairs; Right Rev. the Bishop of Honolulu, Mr. J. H. Putnam, U. S. Consul General; Mr. H. F. Glade, Consul for Germany; Mr. H. R. Macfarlane, Consul for Denmark; Mr. Julius Hoting, Acting Italian Consul; Mr. H. W. Schmidt, Consul for Sweden and Norway; Mr. Goo Kim, Chinese Commercial Agent; Hon. J. S. Walker, Rev. Alex. Mackintosh, Lord Bishop of Oba, Very Rev. Father Leonard, Father Clement, Rev. Dr. E. G. Beckwith, Capt. A. C. Clarke, C. E. E. Prichard, Staff Surgeon, D. B. Booke, Paymaster, Hon. A. Moore and Engineer A. D. Watson of H. B. M. S. *Espiegle*; Marshal J. H. Soper, Rev. Geo. Wallace, Mr. J. T. Waterhouse, Dr. J. S. McGrew, Hon. W. F. Allen, Capt. H. W. Mist, R. N., Prof. W. T. Brigham, Hon. Henry Waterhouse, Hon. H. M. Wiley, Messrs. R. A. Macfie, Jr., A. Wanser, J. M. Monsarrat, T. M. Starkey, Godfrey Brown, E. W. Holdsworth, L. Von Tempky, J. C. Hulbert and Wray Taylor.

CHINESE RELIEF FUND.

The Human Heart Moves to Suffering Humanity all the World Over.

The collections now being made in Honolulu, and throughout the Hawaiian Islands, to aid in sending relief to the famine-stricken districts of China, are being steadily increased. It is also noteworthy that on these Islands this charitable object is not restricted to the offerings of race, class or creed; it is a question of suffering humanity, and other considerations in this case are ignored as they should be. We learn that the Hon. W. G. Irwin has given his check for \$100; and the Hon. S. M. Damon has also given his check for a like amount, accompanied by the following letter which speaks for itself:

HONOLULU, May 21, 1889.
Mr. C. Allen and Mr. Goo Kim, Consuls for China.
Dear Sirs: The papers state that the Chinese residents are collecting funds for the needs of their friends who have suffered by the famine in China. To aid in this worthy object, I enclose my check, payable June 1st, and ask that you will accept it from the people of "Moanahua." I remain, dear Sirs, Yours truly,
S. M. DAMON.

Since the above was in print we learn that Mr. A. J. Cartwright has subscribed \$50, and that the Chinese merchants of Honolulu have already given an aggregate of about \$1,200. This makes a total of \$1,450 since Wednesday morning—not bad for a two days' canvass. The first remittance will be sent on June 1st to the Zealandia to San Francisco, and from that port the amount will be wired to Shanghai.

Volcano News.

Several Volcano excursionists returned by the W. G. Hall on Friday afternoon, and report the Volcano very active. There are several new blow-holes, and one especially near Dana Lake can be heard for a mile from its site. The lake itself is boiling over, and Halemauau has sunk perceptibly from its recent height. Two of the party of excursionists remained over in Kan on a shooting excursion, and the others returned well satisfied with what they experienced.

Another memo of intelligence handed to us since the above was in type, states that Mr. Gallagher and wife, Mr. Stanley and wife, and Mr. E. Jenkins, comprising the Pastime Novelty Company, returned to Honolulu by the steamer W. G. Hall after an absence of several weeks on the several islands of the group. They report the Volcano very active, and were delighted with the scenery and other unique sights of the Kingdom. This company of tourists will probably leave Honolulu for San Francisco by the next steamer.

Hawaiian Fossils—A Rarity.

At the close of the rhetorical exercises at Oahu College on Wednesday afternoon, President W. C. Merritt called attention to some specimens of fossil shells and of petrified wood that have been recently collected by Prof. A. B. Lyons in this vicinity. The volcanic character of the formations on Hawaii make fossils therein a great rarity, and it has generally been assumed that they are wholly absent except from coral reefs. These specimens therefore have unusual interest. The shells from the lava rock of Rocky Hill, near Punahoa, owe their preservation to an accident similar to that which preserved for us in Pompeii so many interesting relics of the old Roman civilization. The other specimens—shells from Diamond Head, and petrified wood from Makiki Valley—were no doubt buried in a similar manner ages ago. It is interesting, however, to note that the shells after all, resemble closely those of the present day.

A cement very much used in China and Japan is made from rice. It is only necessary to mix rice flour intimately with water and gently simmer the mixture over a clear fire, when it readily forms a delicate and durable cement.

Auction Sales.

BY JAS. F. MORGAN.

EXECUTOR'S SALE

By order of the Executor of the Estate of the late James D. Mills, I will sell at Public Auction at my Salesroom, Queen street,

On Wednesday, May 29

AT 10 O'CLOCK A. M.

The following property—
